Mk 02 cable stripper	440-796	

CS40

A light, compact stripping tool for the preparation of cable ends. Self adjusting to all cable sizes between 6.0 and 40.0 diameter. A self-tensioning multiple blade turret head gives positive indexing to four blades with progressive cutting depths of 1.0 to 4.0mm. Produces circumferential and longitudinal cuts as required. A ripping tool is provided to aid in peeling away the insulation.
